

Back-office accounting and audit support services for UK accountancy practices

Transform Your Accounting Practice with Smart Outsourcing

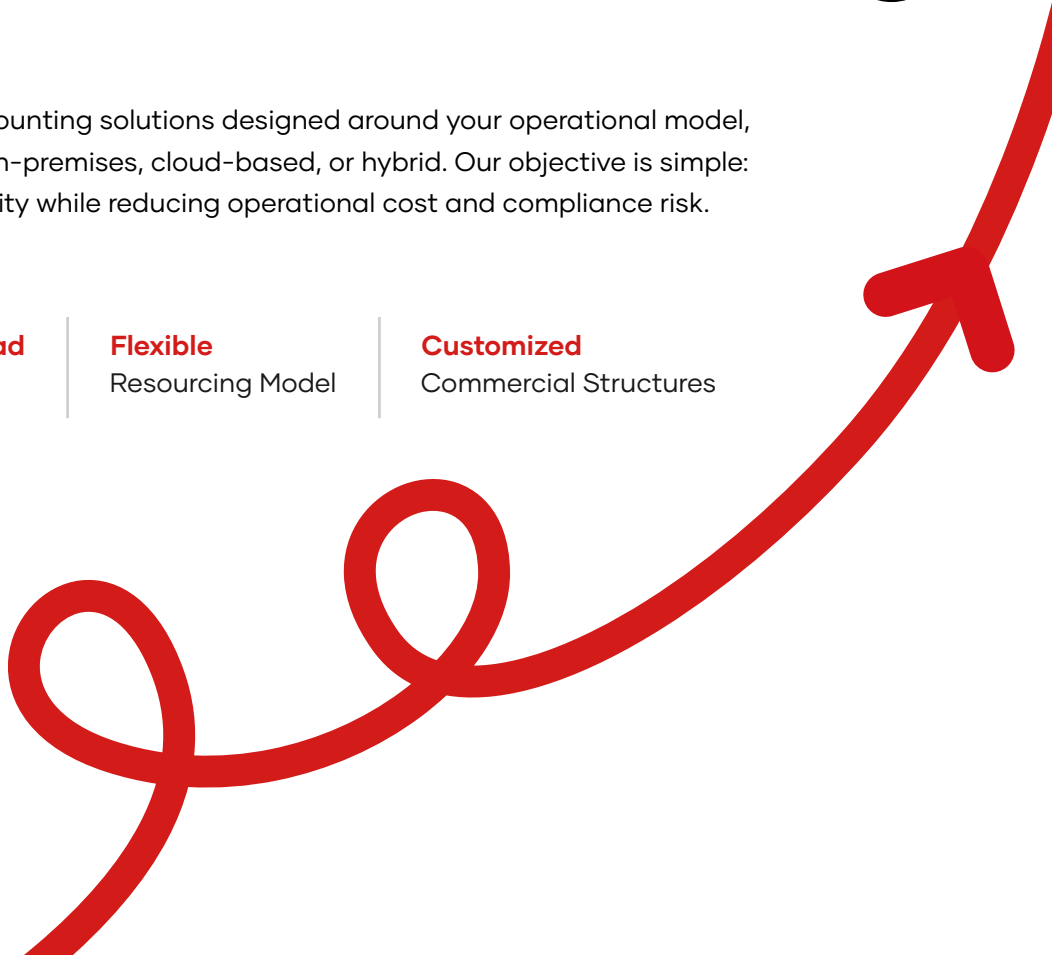

End-to-end infrastructure and accounting solutions designed around your operational model, whether your systems are hosted on-premises, cloud-based, or hybrid. Our objective is simple: To strengthen your delivery capability while reducing operational cost and compliance risk.

Up to 50%
Cost Savings

Zero Overhead
Commitment

Flexible
Resourcing Model

Customized
Commercial Structures

Welcome to the next era of high-performance outsourcing.

For over 25 years, Mangalam has earned its reputation as a trusted, resilient, and relentlessly professional partner. But legacy alone is not enough. As the accounting landscape has grown more complex and more demanding, we have evolved continuously, deliberately, and without compromise.

In 2025, we didn't just evolve, we accelerated.

Faster execution. Smarter operations. Unmatched precision.

Built on deep expertise and uncompromising integrity, we now empower UK firms to scale with absolute confidence. We are here to remove friction, increase capacity, and deliver results that are not just consistent, but transformative.

The question is no longer whether your firm can scale, it's how fast you're ready to move.

Let's eliminate bottlenecks. Let's unlock hidden capacity.

Let's create measurable, undeniable value.

IN-HOUSE vs OUTSOURCED MODEL

| Challenge | In-House Burden | Our Outsourcing Solution |
|---|---|---|
|  Cost | High fixed salaries, NI contributions, Pensions, and Office overheads | 40–60% cost savings, pay only for services utilised |
|  Compliance | Continuous updates to HMRC & MTD regulations with penalty exposure | Dedicated specialists ensure deadlines are met |
|  Time | Partners and managers tied up in routine processing | Hands-off support – focus on advisory & client growth |
|  Talent & Training | Recruitment challenges and ongoing CPD costs | Immediate access to trained UK accounting professionals |
|  Scalability | Staffing challenges during peak and off-peak periods | Flexible resource model – scale up or down with ease |

Key Benefits
